

STILL SPREADING OUT.

The Wonderful Growth of an Ocala Industry—And Still It Grows—Our Cold Storage Plant.

A representative of the Ocala Banner Saturday in his rounds strolled into the office of Mr. Herman Benjamin, the genial and gentlemanly manager of the East Florida Manufacturing Company.

On being asked what was "doing" in that end of the city, Mr. Benjamin replied "Come and let me show you." Everybody in the meat packing department was busily engaged weighing up and storing meats which the citizens of the surrounding country brought in by the wagon loads all day long. The excellent cold storage facilities offered by this concern are not surpassed anywhere, and the farmers are not slow to see the advantages of having a place where meats can be kept at all times regardless of the conditions of the weather. There is now in storage double the quantity of meat that there was at this time last year. Who will dispute the fact that Marion county is a pork raising county?

The facilities for manufacturing ice and furnishing "blizzard air" for the cold storage houses are not large enough, and a new 20-ton ice machine and a large Corliss engine are now being placed in position to reinforce the present ones.

Deeming it necessary to have more protection against fire than the city water works furnished the company is now engaged in putting in three inch water pipes from the artesian well to different portions of the works. New hose and other fire-fighting paraphernalia are already on the grounds and when they get everything finished they will be well protected against the fire fiend.

The street leading from North Magnolia street to the works is being coated with lime and clay. Mr. Benjamin says the farmers shall not drive into Ocala for miles on a good hard road and get stuck in the sand within our corporate limits, so he is having this street put down at his own expense.

Verily, Ocala is growing.

Ballard's Horehound Syrup.

Immediately relieves hoarse, croupy cough, oppressed, rattling, rasping and difficult breathing. Henry C. Stearns, druggist, Shullsburg, Wisconsin, writes, May 20, 1901. "I have been selling Ballard's Horehound Syrup for two years and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it. 25c, 50c, and \$1.00 at Anti-Monopoly Drug Store and Tydings and Co."

John Fox, Jr., on the Trouble of Dress.

On one of his trips through the Kentucky mountains performed by John Fox, Jr., in pursuit of "local color," he stopped over night at a cabin, where he slept up next to the clapboards and went down a ladder to breakfast. He washed his face in a creek below the house, and dried it on a siding of coffee sack hung against the logs for family use, and combed his hair with his own comb before a piece of broken glass stuck between the chinking and daubing.

As he was making his toilet he was closely observed by the small boy of the family, who was clothed in a pair of cottonmade pants hitched to a hickory shirt, with one "gallus" fastened by a nail. Shoes and hat were lacking, and his hair hadn't been combed for six weeks. He watched the visitor so closely that Mr. Fox thought he was making an excellent impression on the young barbarian. As he put on the last touch the boy, unable to contain himself longer, broke in:

"Say, Mister," he inquired, "ain't you a good deal of trouble to yourself?"—The Reader Magazine.

Boys Life Saved From Membraneous Group.

C. W. Lynch, a prominent citizen of Winchester, Ind., writes, "my little boy had a severe attack of membraneous croup, and only got relief after taking Foley's Honey and Tar. He got relief after taking one dose and I feel that it saved the life of my boy." Refuse substitutes. Postoffice Drug Store.

A young astronomer, Tomasso Indi, living in Messina, has invented an apparatus that magnifies 25000 times and it will soon be known whether or not there is a man in the moon or if it is really true that Mars is inhabited.

A glass or two of water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggist and medicine dealers.

Our Sick.

Ocala's sick are rapidly improving. Hon. W. P. Haisley was able to be on the streets Tuesday much to the delight of his friends.

Mr. Chace Crane has resumed his place at the postoffice and is improving daily.

Rev. J. C. Porter is so much improved that his daughters have thought it safe to leave him and Miss Bessie has resumed her studies at Stetson University and Mrs. Collier has returned to Tuscaloosa.

Mr. Allen Rodgers has been discharged by his physician and will be out just as soon as the weather clears up.

Mr. James B. Carlisle was better Tuesday than at any time since his illness and unless he has some setback will soon be able to resume business again.

Mr. James M. Gates, who has been confined to his home for so long a time, is back behind the counters of the Tea Pot grocery, which we know will be gratifying news to his host of friends.

Mrs. Raymond Bullock is no worse, but we regret to say is no better.

General Robert Bullock, who had the misfortune to have three of his ribs broken, continues to make handsome improvement.

A Frightened Horse

Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable salve handy and there is none as good as Bucklen's Arnica Salve. Burns, cuts, sores, eczema and piles disappear quickly under its soothing effect. 25c. at Anti-Monopoly Drug Store and Tydings and Co.

The Atlantic Coast Line now operates dining car service between Jacksonville and New York, and it continues to offer the public a schedule one hour and forty minutes quicker to Washington and New York than any other line.

Mr. Irwin Reardon is in the city for a few days on his way to Savannah, where he has accepted a position as billing clerk in the office of the A. C. L. railway.

Watch the Kidneys

WHEN THEY ARE AFFECTED LIFE IS IN DANGER

A WORD OF WARNING

Dr. ABERNETHY, the great English physician and surgeon, well known to all physicians, sounded words of warning to the medical profession and to all mankind when he uttered the words: "Watch the kidneys; when they are affected life is in danger."

It is the duty of these organs to keep our blood strained of poisonous impurities that are capable of causing the most fatal forms of disease. When they do not perform their work properly, then trouble in some form is sure to follow sooner or later, and if neglected, death will follow.

Some of the most important symptoms are, aching in the back or hips, swollen ankles, puffiness under the eyes, dry or furred tongue, unnatural appetite and great thirst, weakness and loss of weight, sediment or cloudiness in the urine, dryness of the skin or strong perspiration, disorders of the stomach and liver.

All the above symptoms do not appear in any one case, and all kidney disorders will not present the same symptoms.

There is nothing that so quickly and surely makes the kidneys right as FOLEY'S KIDNEY CURE. It is a preparation of the best known remedies used by the world's most celebrated kidney specialists. It is endorsed by physicians and used by thousands. It has saved many lives, and while it cannot cure hopeless cases, it will prevent fatal kidney troubles and give relief in even the last stages of kidney disease.

Postoffice Drug Store.
